### Community Voices Help Shape County Thoroughfare Plan

**Guadalupe County, TX** — Guadalupe County recently held the first of two public meetings to share the Draft Major Thoroughfare Plan with residents. Approximately 60 residents attended the come-and-go session on Tuesday, May 19, and commissioners addressed questions and concerns about roads in their precincts.

Several questions focused on the proposed plan's increase in right-of-way width, which could range from 90, 120, 150 to 200 feet. County officials clarified that the proposed right-of-way widths are anticipated for potential future roadway expansion and transportation needs based on County development and growth that may occur in the area over time. The proposed right-of-ways do not represent planned construction projects.

The Major Thoroughfare Plan is a long-range planning tool to help determine the location and configuration of future roadways and serves as a communication tool between the County, its residents, developers, cities, and TxDOT to help guide the County's future roadway system.

Residents are encouraged to participate in the planning process by reviewing the plan, submitting feedback, or attending the next public meeting on June 2 from 4:30 to 7 p.m. at the Geronimo Community Center, 280 Navarro Drive, Seguin.

Information on the Draft Master Thoroughfare plan is online at [GuadalupeTX.gov](http://GuadalupeTX.gov) or visit one of the County's facilities to view a printed map and submit input via the electronic comment form.
