### Guadalupe County Road & Bridge Departments Donate 2,162 Pounds of Food to Christian Cupboard

GUADALUPE COUNTY, TX— The Guadalupe County Road & Bridge Department once again came together to support neighbors in need by collecting 2,162 pounds of food for the Christian Cupboard, which helps feed families across Guadalupe County.

The annual food donation drive, a long-standing tradition among participating departments within the road and bridge crews, brings employees together each year with a shared goal of giving back to the community.

“This annual effort reflects the generosity and teamwork of our employees,” said Doug Burnside, Road & Bridge Administrator. “The food collected will help area families during the holidays, especially when kids are home. We often hear about the need for donations to the Christian Cupboard, and we wanted to help in any way possible during this giving season.”

The Road & Bridge Department maintains 720 miles of county roads. Their daily work includes constructing new roads, repairing and maintaining existing roads and bridges, mowing and cutting brush in the county, inspecting new subdivisions, and a multitude of other responsibilities to help ensure safe transportation and compliance. To learn more or to report an issue, call the Road & Bridge Administration Office at 830-379-9721 or visit the Guadalupe County website at [GuadalupeTX.gov](http://GuadalupeTX.gov).
